

2016 Consumer Disclosures - Virginia

Occupational Data

An education in cosmetology can prepare you for a wide variety of jobs. The many career paths the beauty industry offers is part of what attracts many people to the field. The following is not intended to provide a complete list of all of those professions. Rather, it is meant to identify the profession that the Bureau of Labor Statistics associates with the program of study that we offer:

Hairdressers, Hairstylists, and Cosmetologists

SOC Code: 39-5012.00

STAUNTON SCHOOL OF COSMETOLOGY INCORPORATED'S

63.64% Completion in 2016

100.00% Licensure in 2016

90.48% Placement in 2016

Median Student Debt

Many students use financial aid to help pay for school. Part of that financial aid may be in the form of student loans, with a remaining balance that needs to be paid back after leaving school. We calculate the median debt of students graduating from the program. "Median debt" means that half of students graduate with less outstanding in student loans than the number provided here, and half graduate with more.

For students graduating in the 2016 year (from January 1, 2016 – December 31, 2016), the median student debt was \$9,091.00

Licensure Rate

Getting a state license to practice cosmetology where you want to work is a requirement for finding employment as a hairstylist or cosmetologist. Staunton School of Cosmetology surveys their graduates to identify the percentage of graduates who became licensed by using the reporting methodology required by our accrediting agency, the **National Accrediting Commission of Career Arts & Sciences**.

SSOC's licensure rate, as measured under the NACCAS reporting requirements was 100.00% for graduates who sat for the exam in 2016.

Placement Rates

SSOC's placement rate is a measure of the number of graduates who find employment. To measure placement we follow the reporting methodology required by our accrediting agency, NACCAS. Under this method 100.00% students who graduated in 2016 and were eligible for employment. 90.48% of these students found employment.
